

The service begins at 7:30 pm. The computer will be up and available to log in just after 7 pm.

Steps to join a Friday night service

1. Bring up any browser (Chrome, Firefox, Explorer, etc...)
2. In the address line type [www.gotomeeting.com](http://www.gotomeeting.com)
3. In the upper right corner you will see a link that says join – click it
4. There will be a place to type the meeting number
5. The number is: 273-268-293 (the dashes can or do not have to be added)

If this is the first time you have logged in the computer may ask you to download the program. Please follow the instructions. It does not cost any money for this program. There is both a pc and a mac version.

Although for this first program we will not be accepting your audio or visual input, we will do so in the future. For this week please mute your microphone and turn off your camera. If you wish to leave a message for us, there is a chat area available after you have logged in. I would also ask you to place your real name into the program so we can keep track as to who logs in. Without it you may be exited from the program. We will not be able to offer technical help during the service. If you are unsure about logging in, please give the rabbi a call during the week and he will set up a test session for you. **Remember that you need the program or app to use the program. It needs to be downloaded and installed to your device first.**

The program will work on any computer, tablet or smartphone. For logging in via a phone:

**Please join my meeting from your computer, tablet or smartphone.**
